

# Marie Skłodowska-Curie Actions(individual fellowships)-EU

## Abstract

The Marie Skłodowska-Curie actions support researchers at all stages of their careers, regardless of age and nationality. Researchers working across all disciplines are eligible for funding. The MSCA also support cooperation between industry and academia and innovative training to enhance employability and career development. It all adds up to a huge investment. In fact, the EU has set aside EUR 6.16 billion to be spent by 2020 on researcher training and career development. Individual Fellowships (IF) are a great option if you are an experienced researcher looking to give your career a boost by working abroad.

## Duration & financial support

The grant provides an **allowance to cover living, travel and family costs**. In addition, the EU contributes to the training, networking and research costs of the fellow, as well as to the management and indirect costs of the project. The grant is awarded to the host organization, usually a university, research center or a company in Europe. Duration vary according to programs.

## Deadline

Dates vary according to programs.

Marie Skłodowska-Curie  
Actions

## Who can apply

- This action is for **experienced researchers** from across the world.
- Applicants need a doctoral degree or at least four years' full-time research experience by the time of the call deadline.
- **All research areas** can be funded. MSCA Fellows come from a wide variety of disciplines – from physics to linguistics, and from health-sciences to mathematical modelling.

## How to apply

To get funding you and/or the research organization have to submit a proposal to one of the calls published on the [Participant Portal](#), the single-entry point for the EU research and innovation programs.
