

## Abstract

The SMART LOIRE VALLY PROGRAMME is launched every year by LE STUDIUM Loire Valley Institute for Advanced Studies. The call for applications does not target any specific research themes. The program aims to develop outward looking interdisciplinary teams with a reputation in developing the EU research and economic landscape.

## Duration & financial support

consecutive 12-month residency in a laboratory of the Centre-Val de Loire region.

full salary, fully furnished accommodation, relocation administrative support, integration in the scientific community, opportunity to organize an international event related to the research project and take part to international scientific events during the residence.

## Deadline

Submissions should be processed online before the 11th February 2021, 5:00pm CET.

<http://www.lestudium-ias.com/programmes>

## Who can apply

- open to all experienced international scientists, in all research disciplines.
- Candidates must have at least 5 years of postdoctoral experience, have lived and worked as a researcher continuously for at least 5 years outside France and meet the EU rules of international mobility.

## How to apply

The applicants are advised to answer all questions of the application form, in a manner that substantiates any claims made by the applicant. Particular attention, but not exclusively, is advised to the following dimensions: proposal background, research plan, data analysis and risk management, significance and innovation of the project, track record of the applicant researcher and of the host scientist.
