

## About the Journal

The International Journal of Energy Systems Planning and Optimization (ESPO) is a peer-reviewed, open access journal published by Kermanshah University of Technology. ESPO serves as a dedicated platform for researchers and engineers to publish original findings in the modeling, optimization, and strategic planning of energy systems. With a focus on sustainability and innovation, the journal bridges the gap between

### ESPO follows a single-blind peer review model:

1. Initial editorial screening
2. Double-checked plagiarism assessment
3. Review by at least two independent experts
4. Editorial decision within 4–6 weeks

### Our mission:

To advance efficient, resilient, and sustainable energy infrastructures for future generations.

Editorial office address:  
Kermanshah University of  
Technology, kermanshah, Iran

**International Journal of  
Energy Systems  
Planning and Optimization**

**Publisher: Kermanshah University of Technology**

**Editor-in-Chief: Dr. Shoaib Khanmohammadi**  
*Associate Professor of Mechanical Engineering*

## Aims & Scope

**International Journal of Energy Systems Planning and Optimization (ESPO)** is an interdisciplinary journal dedicated to publishing high-quality research on the planning, design, and optimization of energy systems from individual components to global networks.

**We welcome original research articles, review papers, and case studies on topics including:**

- Strategic & operational energy planning
- Multi-objective & multi-criteria optimization
- Renewable & hybrid energy integration
- Smart grids & distributed energy networks
- Energy storage planning & optimization
- Energy systems modeling & simulation
- Demand-side management & forecasting
- Environmental & economic assessment
- Energy policy, regulation & sustainability analysis
- AI, machine learning & data analytics in energy planning

**We invite interdisciplinary contributions from:**

- Energy Engineering
- Mechanical Engineering
- Electrical Engineering
- Operations Research
- Economics
- Environmental Studies

### Call for Papers

**We welcome:**

- **Original Research Articles**
- **Review Papers**
- **Case Studies**
- **Technical Notes**

**Submissions are now open**

## Why Publish in ESPO?

- **No Article Processing Charges (APC):**  
Completely free for authors
- **Rapid Peer Review:**  
Constructive feedback within 4–6 weeks
- **Global Visibility:**  
Each article receives a unique DOI
- **Open Access:**  
Your research is freely available worldwide
- **International Standards :**  
Plagiarism screening via iThenticate
- **Indexing-Ready:**  
Published under Kermanshah University of Technol-

## Editorial Board

### Editor in chief

**Dr. Shoaib Khanmohammadi**  
*Department of Mechanical Engineering, Kermanshah University of Technology, Kermanshah, Iran*

### Selected editorial board

**S.A. Sherif**  
*Department of Mechanical and Aerospace Engineering, University of Florida, Gainesville, USA*

**Natasa Nord**  
*Department of Energy and Process Engineering, Faculty of Engineering, Norwegian University of Science and Technology (NTNU)*

**Nguyen D. Duc**  
*Department of Civil & Energy System Engineering, Kyonggi University, Suwon, 16227, South Korea*

**Mehdi Ashjaee**  
*School of Mechanical Engineering, College of Engineering, University of Tehran, Tehran, Iran*

**Reza Hemmati**  
*Department of Electrical Engineering, Kermanshah University of Technology, Kermanshah, Iran*

**Mohammad Hasan Saidi**  
*School of Mechanical Engineering, Sharif University of Technology, Tehran, Iran*

**Monica Carvalho**  
*Department of Renewable Energy Engineering, Federal University of Paraíba, João Pessoa, Brazil*

**Önder Kizilkan**  
*Department of Mechanical Engineering, Faculty of Technology, Isparta University of Applied Sciences, Isparta, Türkiye*
